The BIGGEST Hunger Hack

Together we provide more than 30 million meals every year

KFC's contributions, combined with R2 voluntary donations from our customers, feed more than 30 million nutritious meals to children throughout South Africa. This contributes to a brighter future for these children, as they will be able to focus once they have a full stomach which fuels them to learn, grow and thrive.

Your small change makes really big change

All proceeds raised through Add Hope go directly to non-profit organisations (NPOs), which focus on ending childhood hunger through the Kentucky Fried Chicken Social Responsibility Trust.

Join us in living the mantra:

"No act of kindness, no matter how small, is ever wasted"

Ever wonder where your R2 goes?

You'll be pleased to know that every single donation is tracked and independently audited, with results published in the Add Hope annual report and recent Impact Study.

OUR hope is that everyone who donates to Add Hope is reassured that their R2s are changing lives.

If you need more proof, drill down to the map to see how we Add Hope across South Africa's provinces.

Title

The BIGGEST Hunger Hack

Description

CKEditor 4.21.0 version is not secure. Consider upgrading to the latest one, 4.25.1. It is recommended for security and performance reasons.
